

# Microwave Radiation Now Flooding NYC Neighborhoods

**Are you aware of the dangers?**

**Are you feeling sick yet?**

**Symptoms include:**

**Headaches, fatigue, sleep disorders, heart problems, neurological problems, tinnitus**

**We have at least 11,600 high-powered 4G/5G transmitters in the 5 boroughs, with plans for 4,000 more. They emit levels of pulsed-modulated radiation as high as 25 million times higher than necessary for cell phone calls. No agency is monitoring their levels - or our exposure. Why?**

**Action is required. Call your legislators today. Join us in demanding answers and demanding our rights to health and privacy be protected. Time is of the essence!**
